

TLC Session III

Activity 1: Group Discussion—share your plan

- In this discussion, each member of the group should describe an ePortfolio project being designed for future implementation.
 - Using the framework of the article, "*Designing Learning Activities*," detail:
 - What are the learning outcomes or goals?
 - How will you provide scaffolding support for students?
 - In what ways will you encourage students to articulate their learning?
 - How will you emphasize awareness of audience for this ePortfolio project?
- Other members of the group should respond with answers to the following:
 - Why is ePortfolio a meaningful method of supporting the learning goals for this project?
 - What are the strengths of the project?
 - What areas of the project need improvement?

Activity 2: Work on and share your own ePortfolio template

- Work in teams of 2.
- Share with your partner your plan for arranging your ePortfolio or template. Why did you select this arrangement?
- Share with your partner the artifacts that you want to include in this ePortfolio project. Why are these artifacts important?

Activity 3: Features of *Digication*

- Embed a video
- Create a gallery
- Your questions answered

Homework: Design and create your ePortfolio project on Digication so that you can share in our next session.
